

HOME OFFICE KIT SOLUTION

TELECOMMUTER HOME OFFICE

Most companies are not equipped to provide their telecommuters a standard corporate workstation or desk that complies with existing facility and furniture specification standards. The Home Office Kit by SpaceCo provides a ergonomic work station solution for virtual employees.

- A** Gain more work surface area with the Sit Stand Monitor Arm. If you use a laptop select our Laptop Platform. The SpaceArm and Laptop Platform both mount directly to the SpaceBeam for easy horizontal, vertical and lateral movement.
- B** The WaveLight LED task light provides the perfect amount of light and has two power outlets located on the base to charge devices.
- C** Enjoy the flexibility of sitting or standing while working at home. The basic sit-stand workstation comes with motorized height adjustable legs, stabilizer bar, analog remote and a laminated white work surface.
- D** Expand storage options with the MoPed mobile file cabinet and the Pelican Drawer.
- E** Work tools for the Space Beam include a Binder Bin, File Rack and Glass Shelf.
- F** Add a SpaceBeam to get common work tools off the work surface and in optimum reach and focal zone for increased productivity.
- G** The Elevator removes the CPU from the floor allowing easy access to the front and back of the computer.
- H** Type comfortably with our keyboard platform and mouse pad.

HOME OFFICE KIT SOLUTION

TELECOMMUTER HOME OFFICE

Studies show that alternating between sitting and standing at work can reduce stress on the body, improve circulation, help maintain energy levels and reduce work related injuries associated with prolonged sitting. This is one reason why the ILS height adjustable table is the cornerstone of our telecommuter Home Office Kit.

Select the ILS and worktools that meet your needs and we will ship them to your home.

Item Number	Description	List Price	Qty	Total Price
